## EDUCATION

**Emerson College**

Boston, MA  
B.A. Theatre Studies | 2013

**General Assembly**

Boston, MA  
Software Engineering  
Sept - Dec 2019

## EXPERIENCE

### Software Engineer Fellow

General Assembly | Sept 2019 - Dec 2019

- Developed skills in multiple programming languages and frameworks during a full time 500+ hour, 12-week Software Engineering Immersive program.
- Executed 4 front and back end web development projects with custom REST APIs and coding best practices, and utilized Git for version control.

#### Asking For A Friend

- Full-stack development. A Q & A application with a side of kindness and community. Completed MVP in 4 business days.
- Built with React, Bootstrap, Express & MongoDB. API developed and tested through Postman with full CRUD functionality for users to create and manage postings and comments.

#### BOS.EATS

- Collaborated in a full-stack, team project that resulted in meeting MVP in 3 business days.
- Participated in daily stand-ups towards agile software development that resulted in an organized, cohesive team. Focused on user-friendly front end design while serving as quality control for an improved, functional back end.
- Employed AWS for image storage and constructed back end on Express, MongoDB, Mongoose, & Node.js to create a single page application for users to create uploaded images and content.

#### Wine Journal

- Full-stack development with MVP met in 4 business days.
- Implemented RESTful API with complete CRUD capabilities on Rails & Postgres for users to create and manage wine journal entries.
- Designed and constructed client-side SPA with Javascript, CSS, jQuery, Bootstrap, & Handlebars that resulted in a user-friendly, responsive design.

#### Tic Tac Toe

- Created game logic with Javascript that allows users to play against themselves.
- Utilized AJAX and integrated web application with API for game tracking and secure user authentication.
- Built with jQuery, HTML, CSS & Bootstrap. MVP met in 4 business days.

**Server** Waypoint | Mar 2018 - Sept 2019

**AM Server** Townsman | Sept 2016 - Jul 2018

**Server** Tico | Jun 2012 - May 2018

- Offered hospitality-driven service in upscale casual settings while prioritizing, multitasking, and problem-solving for seamless dining experience in often challenging and stressful situations.
- Extended help and support to fellow servers in high-volume, fast-paced environment.
- Created memorable guest experience through empathetic and thoughtful gestures that helped retain loyal, returning guests.
- Trained and guided new staff members on food & beverage programs.
